On Behalf of WIAA and WMEA a heart felt thank you to the hundreds of people who make this contest possible. The comprehensive list is too long to include here. Simply know that for every student listed here who achieved a superior rating there are teachers and mentors who helped them develop the necessary skills to compete. Education matters and it requires highly qualified professionals to be in place at all of our schools. Please help ensure that we continue to have Music, Art, Theatre, Media and Dance in our schools. These are amazing opportunities for developing young minds, talent, executive decision making and confidence. Music should be accessible to every student in every school. That can only happen with leadership in government, school districts and individual schools who are willing to support the arts with funding. Let's make sure these people know that Music and the Arts matter. Let them know we are watching.
